McCLELLAND LABORATORIES, INC.

Client List

Advance Mineral Technology, Inc. - Preliminary and detailed heap leach testwork

Agricola KG (GWB), Germany - Preliminary heap leach testwork

Airco - Cyanide detoxification research

Allied Lime Co. - Alternative binder research

Allied Nevada Gold Corp. - Preliminary and detailed metallurgical, heap leach, and environmental tests, several projects

Alma American Mining Corporation - Gravity/intensive cyanidation

Alotta Resources, Ltd. - Detailed heap leach testwork

Alta Gold Company - Gravity flotation, CIP, and heap leach - several projects

AMAX Gold, Inc. - Detailed heap leach testwork - several projects - milling/cyanidation testwork - Environmental detoxification - several projects including operating mines

American Cyanamid - Research program - application of $\text{Ca}(\text{CN})_2$

American Eagle Resources - Metallurgical and environmental testwork - heap leach and detoxification

American Girl Mining Joint Venture - Heap leach and milling/cyanidation

AmRO Group, Portable Refining - Prep & assay work

Andina Minerals - Heap leach and milling/cyanidation

Anglo Gold - Gravity/Flotation testwork

Angst, Inc. - Preliminary heap leach

ARB, Inc. - Detailed heap leach testwork

Ardic Exploration - Tailings agglomeration - heap leach

Argo - West Minerals, Inc. - Preliminary cyanidation and flotation testwork

Arimetco, Inc. - Metallurgical and environmental testwork (copper)

ASAMERA Minerals, Inc. - Preliminary heap leach and agglomeration tests - detailed heap leach testwork

ASARCO - Great Basin Exploration Division - Detailed heap leach testwork - several projects

Atec, Inc. - Refractory ore processing research

Athena Gold Corp. - Detailed heap leach testwork - flotation and cyanidation (concentrate) testwork

Atlas Gold Mining Inc. - Carbon adsorption kinetic study

Aurumbank, Inc. - Gravity and cyanidation testwork

A.U. Mines, Inc. - Gravity and cyanidation testwork

Baker Hughes Drilling Fluids - Environmental characterization tests & analyses

Barrick Gold Corp. - Various metallurgical and environmental testwork and analyses, several projects

Barrick Gold Exploration - Various metallurgical and environmental testwork and analyses, several projects

Barrick Goldstrike Mines, Inc. - Metallurgical and environmental testwork

Barrick Sud America - Heap leach and milling/cyanidation, various projects

Battle Mountain Gold Company - Metallurgical, environmental and biooxidation testwork - several projects

Bear Creek Mining Corp. - Confirmatory milling/cyanidation testwork and analyses, pulp agglomeration and environmental testwork

Beaver Resources, Inc. - Agglomeration - heap leach testwork

Betz Industrial - Polymeric binder research program - Environmental detoxification

BHP Minerals - Agglomeration - heap leach and consulting - several projects

Billiton Minerals, Inc. - Detailed heap leach and other projects

BioHeap Technologies, Inc. - Biooxidation Testwork

Black Beauty Gold, Inc. - Detailed heap leach - several projects - Environmental detoxification

Blackdome Mining Corp., Ltd. - Preliminary heap leach testwork

Bond Gold Corporation - Sampling, assay reproducibility, and gravity - testwork

Boro Gold Co. Ltd. - Humidity cell tests and environmental analyses

BP Minerals America - Detailed milling and heap leach testwork - several projects - Environmental detoxification

Brewer Gold, Inc. - Consulting and testwork (heap leach), detailed Environmental testwork

Brohm Mining Corporation - Detailed heap leach and detailed milling/gravity/ cyanidation and flotation testing programs

Brown & Root - Gravity testwork

Bureau of Land Management - Confirmatory cyanidation, claim validation evaluations - numerous projects

Cactus Gold Mines - Detailed heap leach

Calgom Mining - Agglomerate strength and stability tests - heap leach

California Dept. of Water Resources - Environmental testwork and analyses

Cambior - Detailed flotation/cyanidation testwork - several biooxidation heap leach evaluations

Candelaria Mines - Environmental - waste rock classification - closure planning - metallurgical heap leach testwork

Candente Resource Corp. - Acid copper leaching - QLT testwork

Canyon Resources - Preliminary heap leach testwork - several projects

Caribbean & Latin American Mining - Heap leach testwork

Cascade Earth Sciences - Environmental testwork, various projects

Cathedral Gold U.S. Corp. - Preliminary gravity/cyanidation

Chemstar, Inc. - Research program - alternate binder study - several projects

Chesapeake Mining Corp. - Biooxidation, CIL/Milling cyanidation tests

Chevron Resources Co. - Preliminary heap leach, flotation/cyanidation testwork

Cliff Resources, Inc. - Gravity/cyanidation

CoCa Mines, Inc. - Heap leach testwork - Environmental detoxification

Coeur d'Alene Mines Corp. - Metallurgical, milling/cyanidation testwork, various projects

Coeur Explorations - Preliminary cyanidation testwork

Columbian Mines Corp. - Metallurgical milling/cyanidation testwork

Cominco American Resources - Detailed heap leach and preliminary work - several projects

Commerce Group Corporation - Detailed heap leach and detoxification testwork

Compania Minera Casale - Metallurgical milling/cyanidation testwork

Compania Minera La Trinidad, S.A. (Panama) - Preliminary heap leach

Condor Earth Technologies, Inc. - Environmental analyses

Consolidated Goldfields Corp. - Flotation testwork

Coral Gold Resources Ltd. - Milling/Whole Ore cyanidation, gravity and flotation testwork and analyses

Cordex Exploration - Milling/cyanidation and gravity testwork

Corona Gold, Inc. - Metallurgical consulting, heap leach testwork - several projects - Environmental monitoring - environmental detoxification

Cortez Gold Mines (Placer Dome) - Several heap leach and specialized environmental testing programs

Crown Development Corp. - Preliminary cyanide amenability testwork

Crown Resources Corporation - Detailed heap leach test programs

Cyanamid Canada - Calcium cyanide applicability research

Cyprus Metals Company - Milling/cyanidation and heap leach cyanidation testwork. Copper heap leach and heap biooxidation testwork.

Dames & Moore - Environmental characterization testwork

D.P. Engineering - Various environmental projects

Davy McKee Corp. - Heap leach testwork for design criteria - milling/cyanidation testwork - environmental detoxification - several projects

Dayton Developments Corporation - Detailed heap leach testwork - environmental detoxification

Dennison Mines - Gravity testwork and consulting

Desert Hawk Gold Corp. - Metallurgical, milling and preliminary cyanidation tests and analyses

Eagle Picher Filtration & Minerals, Inc. - Environmental analyses

Eastfield Resources, Ltd. - Detailed heap leach and environmental testwork

Echo Bay Minerals - Several heap leach programs plus several detailed - cyanidation, gravity, and flotation projects - Environmental monitoring - environmental detoxification and characterization

Elders Resources - Metallurgical consulting - preliminary gravity and - cyanidation work

Ely Gold and Minerals, Inc. - Metallurgical milling/cyanidation and heap leach testwork

Energel, Inc. - Research

Energy Fuels Corporation - Detailed heap leach testwork

Enesco International - metallurgical heap leach testing and analyses

Equinox Resources - Detailed heap leach testwork - several projects

Exeter Resource Corp. - Detailed heap leach testing and analyses

FMC Gold Company - Milling/cyanidation - CCD and heap leach testwork -several projects - Environmental consulting and testwork

Fairbanks Gold Mining, Inc. - Metallurgical heap leach and pilot column testwork, various projects

Falcon Concentrators, Inc. - Metallurgical, gravity concentration testwork

FirstMiss Gold, Inc. - Metallurgical and environmental testwork - several projects

Florida Canyon Mining, Inc. - Metallurgical, heap leach testwork

Freegold Ventures, Ltd. - Metallurgical, heap leach cyanidation, flotation, gravity and environmental analyses

Fronteer Development USA Inc. - Metallurgical milling/cyanidation, heap leach and environmental characterization testwork, several projects

Galactic Resources, Ltd. (Ivanhoe Gold Co.) - Environmental monitoring

Galactic Services, Inc. - Milling/cyanidation, flotation and heap leach testwork

GD Resources, Inc. - Consulting and various testwork

General Metals Corp. - Metallurgical testwork and analyses

Geobiotics, Inc. - Environmental research and consulting

Geologix Explorations, Inc. - Detailed heap leach testwork

Gerle Gold, Inc. - Preliminary testwork - several projects

Gewerkschaft W. Bergugesellschaft - Preliminary milling and heap leach testwork

Glamis Gold, Inc. - Various types of metallurgical evaluation

Golconda Resources (USA) - Preliminary cyanidation testwork

Gold Fields Operating Company - Metallurgical testwork on several complex ore deposits

Gold Fund, The - Gravity/flotation, cyanidation, and heap leach testwork

Gold King Nevada, Inc. - Environmental monitoring

Gold Production Development Assoc. - Detailed metallurgical and environmental testwork - several projects

Goldcorp USA, Inc. - Metallurgical gravity/flotation testwork and analyses

Golden Phoenix Minerals, Inc. - Metallurgical, flotation/gravity, milling/cyanidation testwork

Golden Predator Mines - Milling/cyanidation testwork and analyses

Golden Reward Mining Co., The - Agglomeration optimization testwork

Golden Queen Mining Co. - Detailed heap leach and detoxification testwork - several projects

Golder Associates - Various environmental testing programs

Goldmor Group, Ltd. - Detailed heap leach testwork

GoldSpring, Inc. - Metallurgical, milling/cyanidation and heap leach testwork

Granada Exploration - Agglomeration - heap leaching testwork

Grandview Resources - Preliminary cyanide amenability testwork

Granite Construction Company - Various metallurgical, milling/cyanidation, heap leach, and environmental characterization testwork

Great Basin Gold - Metallurgical testwork and analyses

Greens Creek Mining - Preparation of drill core samples for assaying and metallurgical testwork

Greystar Resources LTDA - Various metallurgical testwork, heap leach, milling/cyanidation

Gwalia (USA), Ltd. - Detailed milling and heap leach - copper and gold

HB Engineering Group - Various metallurgical and environmental characterization and analyses

HRC Development Corporation - Preliminary heap leach evaluation - several projects

Hatch Ltd. - Environmental kinetic studies

Hecla Mining - Confirmatory heap leach and agglomeration optimization testwork through pilot scale - several projects

Harding Lawson Associates - Various environmental projects

Hecla Ventures Corp. - Various metallurgical and environmental characterization testwork

Homestake Mining Company - Metallurgical consulting and agglomeration heap leach testwork - detailed heap leach programs - biooxidation testwork - Environmental detoxification - several projects

Hope Mining Company - Gravity concentration/flowsheet development

Horizon Gold Shares, Inc. - Heap leach and environmental testwork

Hycroft Resources - Detailed heap leach, zinc precipitation and environmental testwork

Icarus Exploration - Detailed heap leach and environmental testwork

Idaho Gold Corp. - Several preliminary heap leach testing programs - Environmental detoxification

Inland Gold and Silver Corporation - Milling/cyanidation testwork

International Minerals Corp. - Metallurgical heap leach, milling/cyanidation testwork and analyses, various projects

Intor Resources Corp. - Consulting and metallurgical testwork

J.D. Welsh & Associates - Various metallurgical and environmental projects

KennaMetal, Inc. - Environmental testwork and monitoring

Kennecott Process Technology - Detailed heap leach/ CIP/CIL/flotation gravity trade off study - cyanidation of calcines - pilot scale CIP testwork - biooxidation testwork - environmental testwork - several other projects from their operating mines

Kerr-Addison Mines, Ltd. - Preliminary heap leach testwork

Keystone Mining Co. - Gravity, cyanidation, flotation testwork

Kiewit Mining Co. - Various testing programs

Kinross Gold Corp. - Various metallurgical, milling/cyanidation, heap leach testwork and environmental characterization analyses

Knight Piesold - Environmental evaluations

LAC Minerals (USA), Inc. - Preliminary and detailed heap leach and milling testwork - several projects

Lixiviant Inc. - Agitated heap leach testwork

Lone Tree Mining, Inc. - Santa Fe Pacific - Detailed heap leach and detoxification through pilot-scale - several projects

M3 Engineering & Technology Corp. - Consulting and environmental characterization

Magma Copper Co. - Detailed heap leach testwork and consulting (gold and copper) - several projects

Marcobre S.A.C. - Milling/cyanidation testwork

Marshall Earth Resources - Environmental - waste rock classification, metallurgical consulting

Meridian Gold Co. - Detailed heap leach testwork, through pilot scale - several projects. Pilot scale milling/CN, base metal flotation, refractory gold ore testing

Metallic Ventures - Metallurgical heap leach and milling/cyanidation testing and environmental characterization

Micro Min - Preliminary cyanidation testwork

Microbial Biotechnology, Inc. - Preliminary research (biooxidation)

Midway Gold Corp. - Metallurgical, gravity testwork and analyses

MINPROC (U.S.A.), Inc. - Consulting and testwork - several projects

Mine Development Associates - Metallurgical and environmental, gold and copper - several projects

Minefinders Corp. - Metallurgical, heap leach, milling/cyanidation testwork

Minera Barrick Misquichilca S.A. - CIL cyanidation testwork

Minera Yanacocha S.R.L. - Bulk density and moisture determination

Mineral Resources Development, Inc. - Detailed process testwork for design criteria

Miramar Mining Company - Several preliminary heap leach evaluation projects

Misty Mountain Gold, Ltd. - Heap biooxidation testwork

Montana Exploradora de Guatemala, S.A. - Environmental characterization testwork and analyses

Morrison-Knudsen Company, Inc. - Milling/cyanidation

National Park Service - Alaska - Claim validity evaluations

NERCO Minerals - Preliminary heap leach testwork

Nevada Goldfields - CIL, flotation, gravity, heap leach - several projects

Nevada Western Industries - Detailed tailings agglomeration heap leach

Neve Gold Company - Several heap leach programs

Newcrest Resources, Inc. - Gravity concentration testwork

Newmont Gold Company - Carbon kinetic studies, biooxidation testwork

Newmont Metallurgical Services - Environmental characterization testwork and analyses, various projects

Newmont Mining Corp. - Various metallurgical and environmental characterization studies

North Lilly Mining Co. - Agglomeration - heap leach testwork

North Pacific Mining Corp. - Detailed heap leach and environmental testwork

Norwest Resource Consultants - Preliminary gravity, flotation, cyanidation testwork

Oro Gold Resources Ltd. - Gravity concentration testwork and analyses

PRA Group - Preliminary metallurgical evaluation

Paramount Gold de Mexico SA de CV - Preliminary cyanidation testwork

Pegasus Gold, Inc. - Preliminary heap leach, several projects - detailed heap leach - flotation/cyanidation - biooxidation testwork - Environmental detoxification - over 30 projects including work on operating mines

Peregrine Metals Ltd. - Milling/cyanidation and heap leach testwork

Phelps Dodge Mining Corp. - Detailed heap leach and environmental testwork - several projects

Piedmont Mining Co. - Preliminary and detailed heap leach testwork

Pierce International, Inc. - Tailings agglomeration - heap leach testwork

Pikes Peak Mining Co. - Cripple Creek and Victor Mining J.V. - Several environmental ARD and pit water quality evaluations - heap leach testwork

Platte River Gold - Various metallurgical analyses

Pocock Industrial - Milling/cyanidation and metallurgical testwork

Polyus Gold Corp. - Metallurgical, gravity, flotation, cyanidation and consulting

Precious Metals Inc. of Texas - Several varied metallurgical projects

Pocock Industrial - Solution chemistry study

Prochnau, J. & Co. - Several preliminary heap leach projects

Quartz Mountain Gold - Detailed heap leach testing, milling and flotation - Environmental detoxification

Red Rock Mining (U.S.A.), Inc. - Preliminary and detailed heap leach testwork - flotation and milling/cyanidation - several projects

Reynolds Metals Exploration, Inc. - Preliminary cyanidation and flotation testwork - several projects

Robinson Nevada Mining Co. - Various metallurgical and environmental characterization testwork and analyses

Roche Ités, Groupe-consell - Metallurgical and environmental evaluations - Northern Africa deposits

Rodeo Creek Gold - Metallurgical and environmental soils attenuation

Round Mountain Gold Corp. - Various environmental characterization studies and analyses, consulting and column attenuation testwork

Royal Gold, Inc. - Pilot-scale heap leach testwork

Sante Fe Pacific Gold Corp. - Several metallurgical development projects, metallurgical consulting, environmental characterization

Saudi Company for Precious Metals - Detailed heap leach and environmental testwork

Shell Mining Co. - Consulting on agglomeration - heap leach testwork

Silver State Mining - Preliminary heap leach and cyanidation testwork

SOMIAF - Metallurgical "troubleshooting" consulting - Ivory Coast

Siskon Gold Corporation - Preliminary metallurgical and environmental projects

Sonora Mining Corp. - Environmental - quarterly monitoring

Southern Nevada Mining - Preliminary heap leach testwork

Southwestern Gold - Preliminary cyanidation testwork

Sphinx America - Milling/cyanidation testwork, CIP/CIL

St. George Metals, Inc. - Detailed flotation, gravity, cyanidation and environmental testwork

Stevenot, B. dba Carson Hill Gold - Preliminary heap leach - gravity/flotation testwork

Teberebie Goldfields, Ltd. - Detailed heap leach test programs

Teck Corporation - Heap leach and milling/cyanidation testwork - several projects

Tenneco Minerals - CIL/flotation-carbonaceous ore

Terra Mines, Ltd. - Detailed heap leach test programs

Terra Technologies - Preliminary gravity concentration tests

Tetra Tech, Inc. - Various environmental characterization studies and analyses

The Castle Mountain Group - Environmental testwork and analyses

US Gold - Various metallurgical, milling/cyanidation testwork and analyses

USMX, Inc. - Several metallurgical and environmental heap leach testing programs - detailed testing for design criteria

United Nations - Underdeveloped nation program - gold production - Environmental detoxification

Uruguay Mineral Exploration, Inc. - Milling/cyanidation testwork and analyses

Valentine Gold Corp. - Preliminary heap leach

Vector Exploration - Preliminary heap leach

Ventures Trident, Ltd. - Detailed heap leach

Viceroy Resource Corporation - Preliminary heap leach - detailed heap leach - Environmental testwork - environmental detoxification - several projects

Welsh Engineering, Inc. - Several environmental testing programs

Western Ash Company - Alternative agglomeration binder research program

Western Mining Corp. (USA) - Detailed heap leach testwork - agglomeration optimization and consulting - Environmental testwork - several projects

Western Resources Co. - Preliminary cyanidation, milling and heap leach projects

Western States Minerals - Preliminary heap leach and milling/cyanidation projects - environmental evaluations for closure and reclamation

Westmont Mining, Inc. - Various milling and heap leach testing programs - Environmental detoxification - over 30 projects

The Winters Company - Metallurgical testwork and consulting - several projects

Yamana Gold Corp. - Various metallurgical, milling/cyanidation testwork and analyses and environmental characterization studies
